RUSHABH DABHADE

Full Stack Developer & AWS Solution Architect

Experienced Full Stack Web Developer proficient in React JS, Next.js, Flutter, Python, and MongoDB. A highly skilled AWS Solutions Architect. Strong problem-solving skills, with knowledge of Data Structures and Algorithms. Eager to contribute expertise to innovative web projects and stay updated with industry trends.

SKILLS

- React JS
- Next.js
- MERN stack
- AWS
- Flutter
- Python

OTHER SKILLS

- Firebase
- Terraform
- Tailwind CSS
- DSA
- Wordpress

LANGUAGES

- ENGLISH
- HINDI
- MARATHI

INTERESTS

- Blockchain
- Reading
- Research

PROJECTS

InClass Andoid App
An Attendance app

March 2024
(**Demo**) - (**Github**)

A Student Admin attendance mobile app built using React Native. Used Firebase for user authentication and Firestore for storing data. Student user can scan the QR generated by the Admin user to mark attendance. Admin user will get the list of students who marked their attendance under that UID. Location authentication is applied to restrict any unauthorized attendance.

Cloud Architecture for HA
VPC with public-private subnet in Production

February 2024
(**Github**)

Created a VPC that we can use for servers in a production environment. Deployed servers in two Availability Zones using an Auto Scaling group and an Application Load Balancer. For additional security, deployed the servers in a private subnet.

De Cloud
Decentralized Blockchain based Cloud

October 2023
(**Demo**) - (**Github**)

A decentralized web application integrates ReactJS for the frontend and Solidity for smart contract development. Utilizing Firebase for authentication, users can securely create accounts, while file uploads to Pinata cloud via the DeCloud app generate unique file hashes stored on a Hardhat-created Blockchain. These hashes verify file authenticity during display.

WORK EXPERIENCE

IT Recruitment Executive

1/2022 - 6/2023

Ethos Global Services I Pune

Performing Full Life Cycle IT Recruiting in Sourcing, screening, negotiating, and closing candidates for requisitions. Mainly worked on IT (Technical) roles. Proficient in using the Naukri Job Portal and LinkedIn to source passive candidates.
